

Dodge Heard By Board Members

Discusses Plans For Pushing Industrial Development Of City

Plans for furthering the industrial development of Lexington and other communities served by the American Water Works and Electric Company of New York were discussed by Fletcher D. Dodge, industrial counselor and head of the industrial department of the New York concern, at a luncheon given by President James M. Todd of the Lexington Board of Commerce.

As the operating organization of the Lexington Water Company, American Water Works and Electric is interested in being of service to this community, he said, and it would act in co-operation with the trade board as a New York representative in securing new industries for the community. This service would include investigations into the character and financial responsibility of industries that might be induced to locate here. Steps already taken in this direction by the Monongahela West Penn Public Service Company and other subsidiaries of the water and electric company were related by the speaker in illustrating how the mutual arrangement operates.

He explained that, if the industries committee of the Lexington Board of Commerce availed itself of this service, he would return later to Lexington for several days and familiarize himself with the city's attractions to industries. Those present at the luncheon were M. B. Rogers of New York, secretary of the Lexington Water Company; E. E. Jacobson, general manager of the company; Mr. Todd, James Strauss, Theodore Solinger, Washington Reed, Ben Spicer, Gilmore N. Nunn, John Cramer, J. E. Marks, John Yellman, Louis Hillenmeyer, A. C. Reed, John Tindler, G. C. Jones, Mason Jacoby and Ed Wilder, executive secretary of the Lexington Board of Commerce.

Heber Speaks To Lions Club

Competitive conferences and associations embracing high school athletics serve no purpose other than to give students an inflated evaluation of sports, Coach John Heber of the Henry Clay High School, asserted yesterday in an address before members of the Lexington Lions Club at their meeting at the Lafayette hotel.

Although free in his praise of the Kentucky Athletic Association, Coach Heber criticized the practice of awarding mythical championships to high school teams. This, he said, decides nothing and only results in over-emphasis of sports.

Over the 600 schools now holding membership in the K. A. A., 125 support football teams, the speaker said. He commented the association for making and enforcing eligibility rules and age limits. Reduction five years ago of the maximum age limit for high school athletes from 21 to 20 years was only a preliminary to a more drastic cut in the near future, he predicted.

Lacking in the finish and perfection of college aggregations, high school teams make up for the deficiency in enthusiasm, spirit and determination, Mr. Heber said.

In introducing Mr. Heber, Frank Atkins, program chairman, said the Henry Clay coach was the only one in Lexington who could boast an undefeated and unscathed record for 1937. Coach Heber said, however, that Dunbar High school had a similar record.

A prize donated by Lacy Vickers was awarded to Barney Stoll for the most accurate guess of the Kentucky-Alabama football score. President C. A. Webb appointed I. J. Abraham to serve as "tail twister" for November and December. It is the duty of the "tail twister" to collect all fines.

Mr. Webb announced that a board of directors meeting would be held next Tuesday night. Guests at yesterday's meeting were E. L. Malone, Sidney R. Barker and T. F. Foster, Jr.
